*All Three are necessary for Onement
Masters discovered this....will you?*

At 11:34:45 a.m., Central Standard Time, Moon Mother Ash sits rightly on her throne. The Queen of All Consciousness is present. Yin and Yang are in perfect harmony. The Dark and Light reveal such a tremendous union that nothing can disturb it...not even a treacherous ocean as we see in the card of Ash.

As we continue to work with the message of “Out of the Shadows, Into the Light,” we are in perfect balance to experience powerful moments of birthing a higher nature within ourselves. It is a nature to create from our Divine Self, to live in harmony, and to know our passion, joy, and ecstasy. Yet, we ask the question, “How do we do this in the midst of malicious shadowy effects of earthly living?” We persevere in our faith, our higher knowing, and our ability to create a new reality every day. We do, after all, truly have the power to do this, especially when we adhere to the truth that The Divine is Us and therefore, we are the Divine.

Working with the Consciousness of Ash

This Divine Face is a constant reminder of our Sacredness. It is a powerful message of dipping into the dark creative world of what appears to be the unknown, and then letting the essence flow through our psyche, inspiring us with a joyful expression to respond physically. When we do respond, we are unifying the three stages of Ecstasy, Joy, and Passion, and bringing the dark matter of creation into the light. Thus in this instance, coming out of the shadow has a

meaning of positive, creative processing that we will manifest an outcome that is useable (bringing it to the light). We surely are called to dip into the great ocean of consciousness with clarity and use our highest level of intuition to guide us; not illusionary desires.

We are moving out of the busy energy of Rowan. Her time called us to be active in our forward thinking and planning. Ash calls on us to do something else with this planning. This state of higher consciousness stirs the inspiration to sanctify the plan from a mystical plane of our essence. Thus, this is a month to retreat into the depths of this creative ocean and chart the time and space for a spiritual retreat. This will allow the work done in the light of Rowan to be nurtured by the power of the roots of the Tree of Allness within. This enables our Tree to grow with stability, strengthened by our intent to realize how to embody the sacred with the passionate union of Yin and Yang, the joy of knowing what is and yet, what is to be, as our ecstatic reality knows “All Already Is.” We thus, draw the dreams of our personal desires forward from the Ocean of Creative Consciousness.

In the ocean we are fishing for the pure knowledge via a fish hook that Rowan offered us. Her partner Urania presented us with the lightening flash to see what is in the depth of our inner ocean of creativity. Ash now invites us to dive to the depths, create at a higher order of sacred consciousness, grasp what we are creating and bring it to the shores of our personal reality.

As we allow ourselves this retreat into this great Ocean of Consciousness, it is our time to release our inner power and no longer hang on to the limited beliefs of the human era. It is the time to recognize the absolute reality that our whole-being is the Passionate expression of our Divine Self ecstatically involved in the joy of manifesting through the agency of matter. Our Divine Self rejoices in being light and sound, waves and particles, air and water. It delights in being distance and non-distance, stars and planets, non-solid and solid. It delights in Being All Things and No Thing. Spirit and Human, Allness as woman or man, animal or plant, mineral or water, gas or air...

As I write this letter, our world is watching our sisters and brothers of Ukraine and Russia at war. Our world leaders are working to assist a treaty of peace. We hear of all the challenges that everyone will face economically as we cry and pray for peace while watching lives destroyed and people dying. How do we create in the midst of this growing challenge that seems to be adding to the continuance of discord with an ongoing, yet slowing pandemic, war against our governmental standards, and fighting about the color of our skin or ethnicity? I say, “We must.” For those of us who follow, intentionally, the wisdom of the sacred mysteries, we know if we enter into the negative we only increase the negative. We can aid in balancing the tilting scales by remaining in compassion, loving prayers for peace and harmony, and open hearts for the healing energy to pass into this world of matter. In our creative retreat we can move more easily into the frame of mind and emotions that change the course of energy that help our human world increase in compassion and

love when fear appears to prevail. May we all know that through the flow of an increased energy provided during the lunar cycle of Ash, we can dip in the greatest field of Oneness, capture the wisdom of harmony, and bring this frequency into our human existence. We can allow change without destroying each other.

May this be a part of our creative time as well as creating our personal desires. For this is a month of wholeness, balance, harmony, and creativity in the greatest depth of the Ocean of Oneness. May we all move out of the shadow of fear and realize there is a realm of dark, creative substance of the Ultimate Creator that we can dip into and mold it into the creation of the desires in our heart and manifest it in our world. Thus, we can use the term, “Out of the Shadows,” in a very positive way....it is the molten black-hole of creativity. May we create for our personal self. May we create for our world. For in this essence of time we note as Ash/Pisces, it is a time of sacredness, compassion, rebirth, and Oneness.

Neptunia’s active assistance

The vibration of this active energy aids us in going deeper into the psyche of our being; and more. It guides us into the Oneness Consciousness. It aids us in knowing Allness...the past, the present, the future...the Ultimate NOW!

This vibrant, active energy is a frequency that can help us know exactly what we need in order to create a different reality for our personal and worldly existence to advance in the Yin/Yang harmony. First, Neptunia will help us turn upside down and inside out. She is a “changer,” a Shape-shifter. Recall, a shape-shifter is a quality of being able to change form or identity at will.

Ultimately, the Will To BE that the Purest Essence of Oneness is Its ***Will to be All and Nothing At All***. Within Its individuality is the power of Its Oneness and thus Its Shape-shifting capability that is extremely creative. Thus, our individuality, when we realize we are the Oneness, we are a shape-shifter and can shift our consciousness and shape our reality into new forms and expressions. Neptunia most definitely can help us. It becomes important to deeply contemplate this reality.

I do send out a caution! Neptunia also rules the power of Illusion. We can deceive ourselves, maintain illusionary beliefs, and weave a creation that never comes to the fruition we think we are designing. How does that happen? I believe there are several reasons. We simply are not willing to recognize the truth, for one thing. Thus, we get stuck in pushing the false creation to a fruition.

Another reality is that our individual soul timing is not vibrating to the intention to create what our human desire is. Our soul consciousness is trying to let us know that what we desire is a false belief appearing real and will just take us on a path we later will regret (we actually have inner signals telling us this). However, our human will is so strong we want to create on the pathway of illusion anyway. Our Soul and Divine center allow this choice and we get to experience the challenge and disappointment of an outcome we “wish” we hadn’t chosen to experience (because somewhere in our inner feeling we knew the consequences weren’t really going to be the true outcome we thought we wanted). So, what do we do with this?

We can use the gift of the Sacred Retreat with Ash, and allow the Neptunia consciousness help us take action and dive deeply into our immeasurable and higher consciousness. We can allow our inner nature to become a “passive viewer” seeking to hear, feel, see, know as our personality becomes an observer rather than the answerer of what we want. We can retreat into the inner sanctuary, wait patiently for a prompting, and then respond. Perhaps we will be called to move deeper into the Ocean of Consciousness, the darker spaces of the Universal Creative field, where we can “see nothing; know nothing, hear nothing, and be nothing,” for a period of incalculable time. *Silence in the Midst of Oneness. Soundlessness in the Midst of Allness.* We will know when to use the pitchfork of Neptunia to grasp the very particular field of energy consciousness we need to create the “something” we either desire, or we feel, hear, see, and ultimately Know (without knowing) is what is to be sculpted and molded into a manifest expression in our world.

The more we know we are Creators Creating, the more we realize we are also responsible, conscious beings. We are the sculpture using our tools wisely. We are the intuit using truth, not illusion. We are the Divine designing from the Nothing of Allness and forming it through the very palms of our hands, the agency of our hearts, and the power of our spirit.

Using the Power of Symbols!

It is time to use the power of symbols to scintillate our three states of consciousness. Do bring out your deck of cards, *The Faces of WomanSpirit, A Celtic Oracle of Avalon*. Shuffle them and release the energy of the past. Bless them and shuffle again to call forth the very intention you hold within your field of Passion, Joy, and Ecstasy. Then pause in union with body, heart, and mind where you only find the Oneness of True Spirit. Finally, review the questions below and draw a card for each question without turning any card over until all are pulled. Then turn them and review what your inner self brings to cognitive consciousness that will aid unification. Be blessed by your reading. Awen!

- 1) What passion do you have to enter the Ocean of Consciousness?
- 2) What Joy will carry you into the depth of the Ocean of Consciousness?
- 3) What state of Ecstasy places you in true Oneness in the Ocean of Consciousness?
- 4) How will you retreat into a pure state of Yin/Yang Harmony?
- 5) What may assist you in remaining silent in the midst of Oneness?
- 6) What may assist you in remaining soundless in the midst of Allness?

May the gift of this ocean retreat provide a depth of insight the likes you may have never felt or known before. May your return from the retreat with a sense of rebirth, renewal, and rekindling of your passion!

Love and blessings,
Katherine
